## Installation of App from APK file

This manual is useful both to install Domovea or Elcom Access update or the AppUpdater app.

Prepare a USB key with the apk file to be installed. Plug the USB key on the product with the type A USB / mini-USB adapter.

The detection of the USB key is indicated with the small icon on the top left corner.

Access to the menu and press « Unlock »

Type in the administrator code (8273 by default) and press on « LOGIN » to access to more menu items.
