- JK1125ATS - 125A Enclosed ATS unit

CAUTION

This product has been designed for environment A. Use of this product in environment B may cause unwanted electromagnetic disturbances in which case the user may be required to take adequate mitigation measures.

This product is to be used in the final circuit within an electrical system (ie appliance / equipment level) only.

Interface Characteristics	
Rated & operational voltage (U_n / U_e)	415V a.c. 50Hz
Rated insulation voltage (U_i)	690V a.c. 50Hz (Power Circuits) / 300V (Control Circuits)
Rated impulse withstand voltage (U_{imp})	6kV (Power Circuits) / 2.5kV (Control Circuits)
Rated current of the Assembly / Circuit (I_{nA}) / (I_{nC})	125A max
Rated short-time withstand current (I_{cw})	7kA / 0.3 secs & 4kA / 1.0 secs
Rated conditional short-circuit current of the ASSEMBLY (I_{cc})	50kA rms prospective conditional (T.0 gG fuses)
Rated diversity factor (RDF)	1
Rated frequency (f_n)	50 Hz
Oversvoltage category	II
Pollution degree	3
Intended locations	Indoor use only
Stationary ASSEMBLY	
Degree of protection	IP30 with Door Closed IP2XC with Door Open
Intended use	Distribution boards intended to be operated by ordinary persons
Electromagnetic compatibility (EMC) classification	EMC Environment A
External design	Wall-mounted, surface type, enclosed assembly.
Mechanical impact protection	IK05
The type of construction	Fixed parts
DBO Type	Type B DBO
Types of system earthing for which the ASSEMBLY is designed	TNC-S, TN-S and TT when installed in an electrical system conforming to BS 7671
Preventative Maintenance	It is recommended to operate the product at least once a year I - O - II - O - I
Note:	Maintenance should be planned carefully and carried out by qualified and authorised personnel. Consideration of the critical level and application where the product is installed should form an essential and integral part of the maintenance plan. Good engineering practice is imperative whilst all necessary precautions must be taken to ensure that the intervention (whether directly or indirectly) remains safe in all aspects.

Designation	H	W	D	Weight (kg)
JK140ATS	450	465	132.5	10.5
JK163ATS	450	465	132.5	10.5
JK180ATS	450	465	132.5	10.5
JK100ATS	450	465	132.5	10.5
JK125ATS	450	465	132.5	10.5

Warranty

This distribution board is offered with a 24 month warranty against defective material or manufacture. If a warranty claim is necessary, please call the technical support number given at the bottom of the page and we will be pleased to help.

The use of a Megohmmeter is prohibited on this product as the connection terminals are intrinsically connected to the sensing circuit.

All product(s) must be installed by a suitably competent electrician giving consideration to their intended use and in accordance with the current edition of BS 7671 (IET Wiring Regulations).

The Electricity at Work regulations and the Health and Safety at Work Act shall be complied with.

Only equipment and arrangements specified in Hager's technical documentation / catalogue shall be used

Install in the vertical plane only.

Notice:

To prevent potential overheating from loose connections the installer shall check connections are tightened to the torque levels stated in these instructions prior to energising this board. This check should include factory made connections which may have loosened in transit.
