round
design**

Twin switched socket

Twin switch socket, a delight on the wall, convenient, and beautiful.

Customized panels

To meet design requirements, customers can enjoy exclusive customized service, making your switch panels unique.

Expert Tips

07
The unique brand

Individuality need not to be displayed but it is an expression of your character. The hager brand is exquisitely and uniquely located on the side, offering the product boundless space for expression and letting the essence of beauty blend with the quality of life.

01
Exquisite design

With fine craft, designed precisely, only for the purpose of providing abundant wiring space and convenient installation means.

02
Delicate chamfering

Good design lies in every detail. Creative and delicate idea brings excellence to our living and working spaces.

Consistent in size ## 08

In accordance with the highest standard, the switch and socket are consistent in size, offering flexible interchange-ability.

09
13A 3 pin socket with USB charger

The socket is equipped with two 2.4A USB chargers, which intelligently adapt to mobile devices with different power consumptions, ensuring safety and fast charging.

03
Multicolor options

Many choices to fit your ideas: white, noble bronze and knight black.

10
Quick installation

The mounting bracket has superior strength and rigidity. It is suitable for all kinds of installation conditions.

04
Switch equipped with fluorescent indicator

The switch is dotted with rays of light like twinkling stars, waiting quietly for its guests to enter. Responding to your fingertip, it makes the home bright.

11
U type screwed terminals

Capacity of terminal can fit 3 x 4mm^2 flexible/ rigid cable. However, it is easy for wiring and faster for installation.

05
IP55 waterproof cover

Ensuring safety against water and dust ingress when operating in wet and dusty areas.

12
16AX reliable and high performance

Mechanical switch
Rated current: 16AX
Rated Power: 4000W
The load capacity of switch is stronger, for better performance in increasing demanding installation.

06
USB charger

4.2A, 5V charger with 1 Type C and 2 Type A port suits most portable electronic devices.
No need for extra charger, with only USB cables.
Up to 3 devices can be charged simultaneously. Easy and convenient to use.

13
Identification for power

Delayed power off is built-in, which save power in a smart way. The insert tag switch has LED indicator, which makes it easy for you to find the slot in the dark. After power on, the indicator will turn off automatically.

- Complies with
  BS EN 60669-1
  IEC 60669-1
  CB certificate

- 'AX' rated - No need to derate
  for fluorescent loads

- 16 AX
  (200W Self Ballasted Lamp (SBL))

- Supplied with M3.5 x 37 mm
  long fixin g screws

- Capacity of each terminal:
  3 x 1.5 mm²
  2 X 2.5 mm²

- Two way switches can be
  wired either 1 way or 2 way

- Terminal markings denote:
  L1   = one way
  L2   = two way
  C   = common

- Material: Polycarbonate

Warranty:

A warranty period of 10 years* is offered on Hager products, from date of manufacture, relating to any material or manufacturing defect.

The warranty is void if:
After inspection by Hager technical support department the device is found to have been installed in a manner which is contrary to IEC wiring regulations and accepted practice within the industry at the time of installation.

Warranty does not include damages or scratches caused due to inappropriate cleaning or use of any abrasive material.

An explanation of defect must be included when returning the goods.

* Excludes electronic products, which have a warranty of 2 years.
