The charging point

The witty one is a starter charging point packed with essential functionalities, including integrated DC residual current detection for maximum safety. Access control via RFID prevents energy theft. With an accessory, witty one also supports dynamic load balancing and PV charging.

i Weather and wind

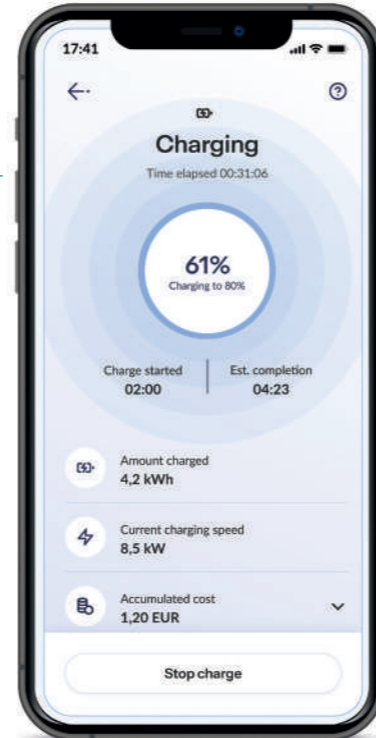

Thanks to its UV-resistant housing, a high level of ingress protection (IP54) and a high impact resistance rating (IK10), witty one is suitable for indoor and outdoor use.

The corresponding Hager Charge App

witty one's intuitive app-based commissioning system, available as a smartphone app, empowers installers to effortlessly set up and configure the charger.

From monitoring charging activity to managing user authorization, controlling every aspect of your EV charging experience has never been easier or more convenient.

Bluetooth app for installers to do the commissioning.

The two versions

1 Tethered cable
(6.5 m length)

2 Socket

Light indicator

RFID Reader

Integrated flap

(for socket version only)

The main accessories

The witty one charging point offers accessories to enhance functionality and installation versatility. Key among them is the pedestal for flexible, secure mounting without wall support. Plus covers in different colour options.
