

HXC005H

**Shunt trip Release 380-450V AC (h250-h400-h630-h800-h1000)**

**Technical Features**

**Power**

|                       |         |
|-----------------------|---------|
| Inrush power absorbed | 2.93 VA |
|-----------------------|---------|

**Safety**

|                               |      |
|-------------------------------|------|
| Ingress Protection (IP) class | IP4X |
|-------------------------------|------|

**Voltage**

|                    |             |
|--------------------|-------------|
| Command voltage AC | 380 - 450 V |
|--------------------|-------------|

|                    |         |
|--------------------|---------|
| Command voltage DC | 0 - 0 V |
|--------------------|---------|

|                              |             |
|------------------------------|-------------|
| Rated operational voltage Ue | 380 - 450 V |
|------------------------------|-------------|

|                                 |         |
|---------------------------------|---------|
| Rated operational voltage in DC | 0 - 0 V |
|---------------------------------|---------|
