

EE873

Motion detector comfort 220/360° brown

Technical Features

Detection

Type of sensor	Movement detector
----------------	-------------------

Settings

Time delay	5 S - 30 Min
------------	--------------

Frequency

Frequency	50 - 60 Hz
-----------	------------

Use conditions

Operating temperature	-20 - 55 °C
-----------------------	-------------

Materials

Colour	Brown
Material	Plastic

Safety

Ingress Protection (IP) class	IP55
-------------------------------	------

Installation, mounting

Mounting on	Surface mounting
-------------	------------------
