

L520FK00-100

Glaszekering Ø 5 x 20 mm F 100 mA 250 V

#### Technische eigenschappen

##### Zekering

|                  |        |
|------------------|--------|
| Zekeringsgrootte | 5 x 20 |
|------------------|--------|

##### Stroom / temperatuur

|                 |        |
|-----------------|--------|
| Nominale stroom | 0,10 A |
|-----------------|--------|

##### Vermogen

|                                  |        |
|----------------------------------|--------|
| Totaal vermogensverlies onder IN | 0,60 W |
|----------------------------------|--------|

##### Spanning

|              |    |
|--------------|----|
| Type voeding | AC |
|--------------|----|

|                   |             |
|-------------------|-------------|
| Nominale spanning | 250 - 250 V |
|-------------------|-------------|

##### Duurzaamheid

|                 |    |
|-----------------|----|
| REACH-SVHC vrij | Ja |
|-----------------|----|

|              |    |
|--------------|----|
| RoHS conform | Ja |
|--------------|----|
