

HXA001H

Shunt trip 24V DC (x160-P160-x250-P250-x630-P630)

Technical Features

Power

|                       |         |
|-----------------------|---------|
| Inrush power absorbed | 0.72 VA |
|-----------------------|---------|

Safety

|                               |      |
|-------------------------------|------|
| Ingress Protection (IP) class | IP4X |
|-------------------------------|------|

Voltage

|                                 |           |
|---------------------------------|-----------|
| Command voltage AC              | 0 - 0 V   |
| Command voltage DC              | 24 - 24 V |
| Rated operational voltage Ue    | 0 - 0 V   |
| Rated operational voltage in DC | 24 - 24 V |

Sustainability

|              |     |
|--------------|-----|
| RoHS conform | Yes |
|--------------|-----|
