

168050

LED-module for Corona lighting, Q.7, transparent

Technical Features

Voltage

Nominal voltage 230 - 230 V

Dimensions

Height 95 mm

Width 95 mm

Depth 6.50 mm

Power

Current consumption 5 mA

Installation, mounting

Mounting on Module insert 230 V AC

Materials

Colour White

Lighting

Type of lamp LED not exchangeable

Texts

Lighting For lighting and monitoring circuit
Additional benefit by combination of 230 V inserts with an orientation light or ambient light

Installation mode Clamp fastening

Type of connection With Wago terminal for wiring

Wiring Through-wiring possible, therefore also ideal for retrofitting

Suitable for

Q.x
