

80040011

Bus coupling unit flush-mtd, ext. temp. sensor, KNX

Technical Features

Settings

|                              |             |
|------------------------------|-------------|
| Supported configuration mode | ETS<br>easy |
|------------------------------|-------------|

Connectivity

|                           |                                   |
|---------------------------|-----------------------------------|
| With bus system KNX radio | No                                |
| Mounting type             | Claw mounting<br>Screw connection |

Use conditions

|                       |            |
|-----------------------|------------|
| Operating temperature | -5 - 45 °C |
|-----------------------|------------|

Installation, mounting

|             |                |
|-------------|----------------|
| Mounting on | Flush mounting |
|-------------|----------------|

Voltage

|                            |           |
|----------------------------|-----------|
| Operating voltage over bus | 21 - 32 V |
|----------------------------|-----------|

Dimensions

|                |       |
|----------------|-------|
| Built-in depth | 32 mm |
|----------------|-------|

Materials

|          |                  |
|----------|------------------|
| Material | Metal<br>Plastic |
|----------|------------------|

Texts

|             |                                                       |
|-------------|-------------------------------------------------------|
| Protection  | With dust protection flap for user interface (AST)    |
| Temperature | Additional connection for external temperature sensor |

Sustainability

|              |     |
|--------------|-----|
| RoHS conform | Yes |
|--------------|-----|
